JEFFERSON COUNTY REMEDY LANDS/SEMI-ANNUAL REPORT - WSB-339-93

The enclosed report summarizes activities on the Jefferson County Remedy Lands during the first half of 1993 and plans for the remainder of the year. The Remedy Land activities are directed by the 1985 Settlement Agreement, McKay vs. U.S. The Department of Energy has agreed to provide Jefferson County with a report on Remedy Land activities on a semi-annual basis. This report should be transmitted to the following individuals:

Ms. M. L. Tucker, Assistant Jefferson County Attorney
Mr. Stanton LeBreche, Jefferson County Open Space
Ms. Jean Jacobus, Jefferson County Attorney's Office
Ms. Bonnie Lavelle, Environmental Protection Agency, Region VIII
Mr. Joe Schieffelin, Colorado Department of Health, Hazardous Materials and Waste Management Division
Mr. Gary Finstad, Soil Conservation Service, District Conservationist

The ability to schedule future tilling operations, as required by the Settlement Agreement, is limited by lack of revegetation success on areas tilled in 1985 and 1986. Previous reports to Jefferson County have outlined historically poor revegetation results. The Settlement Agreement states that tilling of the alternate set of strips shall not begin until the first set is successfully reestablished in native plant species. An aggressive revegetation program was initiated in 1991 and will continue. Results of the Operable Unit 3 Remedial Investigation field work currently being conducted will also be used to plan future activities on the Remedy Lands.
